GLOBAL POLICY DEVELOPMENT PROCESS

RIPE 76, AP WG, May 2018

Filiz Yilmaz

Why this short presentation

- Recently there was mention of a potential "global policy proposal"
- We did not have to kick off a Global Policy Development Process for many years now
  - Last one was ratified in 2012
- So time for a refresher in case we need to deal with it

ICANN | ASO
Address Supporting Organization

Who is ASO AC?

- Address Support Organization Address Council = Number Resource Organization Numbers Council (NRO NC)

- The last "N" in ICANN, aka "Numbers"

- ASO: A response to creation of ICANN (1998)
  - Regional Internet Registry system and the Numbers communities predate ICANN
  - To connect ICANN to the already existing and fully functional system of global policy making on Numbers
  - First MoU signed in 1999 with existing RIRs

ICANN | ASO
Address Supporting Organization

ASO AC Scope and Structure

- **Reviewing** global policy development process
- Selecting ICANN Board seats 9 and 10

- Defining procedures for the selection of individuals to serve on other ICANN bodies
- Providing advice to the ICANN Board on number resource allocation policy

- 15 Members [3 From Each Region]
  - 2 Elected at Large
  - 1 Appointed by RIR Board

- RIPE Region reps in 2018:
  - Nurani Nimpuno
  - Filiz Yilmaz
  - Hervé Clement (Board appointed)

Policy Title and Link	Explanation	Translation (PDF)
Internet Assigned Numbers Authority (IANA) Policy For Allocation of IPv6 Blocks to Regional Internet Registries	Criteria governing the allocation of IPv6 address space from the IANA to the RIRs	*Arabic Chinese English French Russian Spanish*
Internet Assigned Numbers Authority (IANA) Policy for Allocation of ASN Blocks to Regional Internet Registries	Criteria governing the allocation of ASN Blocks from IANA to RIRs	*Arabic Chinese English French Russian Spanish*
Global Policy for Post Exhaustion IPv4 Allocation Mechanisms by the IANA	Criteria governing the allocation of IPv4 address space from the IANA to the RIRs	*Arabic Chinese English French Russian Spanish*
ICP-2: Criteria for Establishment of New Regional Internet Registries	Criteria governing the creation of new RIRs	

Global Policy Development Process (GPDP)

Global Policies Development Process

In (other) words

- The proposal should be proposed in all RIR regions
- Identical proposal should reach consensus in all regions for ASO AC to consider it
- ASO AC reviews the process followed in each region and then
  - pass it to ICANN for ratification as a global policy or
  - advise the NRO Executive Council that the Address Council has concerns and that the proposal requires further review within the public policy development process, or
  - request the NRO Executive Council for an extension of time to complete the review of the proposal
- ICANN Board then can
  - accept the proposal by a simple majority vote; or
  - reject the proposed policy by a supermajority (2/3) vote; or
  - by a simple majority vote request changes to the proposed policy; or
  - take no action
    - —> the proposed policy is deemed to be accepted by the ICANN Board and it becomes global policy.

Other than this, few latest news

- Ron da Silva from ARIN region is selected for the ICANN Board seat for another 3-yr term, starting in Oct 2018

- Akinori Maemura from APNIC region is the current occupant of Seat 10

Thank You!
