ABOUT US

At Clinogenesis Research Institute, we believe that education is the key to unlocking potential, especially in fields as critical as clinical research and bioinformatics. We're not just another online learning platform—we're a group of dedicated professionals passionate about making quality education accessible to everyone, regardless of where you are in your career.

Our journey began with a simple goal: to create courses that genuinely make a difference. We understand the demands of the healthcare and life sciences industries because we've been there. That's why our courses are carefully crafted by experts who bring their real-world experience into the classroom. We want our students to leave not just with knowledge, but with the confidence and skills to apply it.

Whether you're just starting out or looking to advance in your career, we're here to guide you. At Clinogenesis, it's not just about learning—it's about growing together and making an impact.

Our Mission

At Clinogenesis Research Institute, our mission is simple yet profound: to empower the next generation of clinical researchers and bioinformatics professionals with the knowledge, skills, and confidence to make a real difference in the world. We believe education should be more than just a transfer of information—it should inspire, challenge, and drive individuals to achieve their full potential. That’s why we are dedicated to providing high-quality, accessible online courses that blend theoretical learning with practical application, ensuring our students are ready to tackle the complexities of the modern healthcare and life sciences industries.

Our Vision

We envision a world where education knows no boundaries and every aspiring professional, regardless of their background or location, has the opportunity to excel. Our vision is to become a global leader in online education for clinical research and bioinformatics, shaping a community of learners who are passionate about innovation, committed to ethical practices, and driven to improve health outcomes on a global scale. By staying at the forefront of industry trends and continuously refining our curriculum, we aim to cultivate leaders who will not only succeed in their careers but also contribute meaningfully to the advancement of science and medicine.

Our Objective

Our primary objective is to deliver high-quality, accessible, and relevant education that aligns with the needs of the global healthcare and life sciences sectors. We are dedicated to continually updating our curriculum to reflect the latest advancements and to provide our students with a competitive edge in their careers.

Our Services

Clinogenesis Research Institute stands out because of our unwavering commitment to excellence. Our courses are developed and taught by industry experts with extensive experience in their respective fields. We offer a unique blend of theoretical knowledge and practical insights, ensuring that our students are well-prepared to tackle real-world challenges. Additionally, our online platform is designed for flexibility, allowing learners to progress at their own pace while benefiting from a supportive learning community.

Why Choose Us ?

Choosing Clinogenesis Research Institute means choosing a partner in your educational journey who understands the demands of the modern healthcare and life sciences industries. We provide:

- **Comprehensive Curriculum:** Our courses cover all critical aspects of clinical research and bioinformatics, giving you a well-rounded education.
- **Expert Instructors:** Learn from professionals who bring real-world experience and insights into the virtual classroom.
- **Flexible Learning:** Study at your own pace with our user-friendly online platform, designed to accommodate your busy schedule.
- **Career Advancement:** Our courses are geared towards enhancing your employability, with a focus on the skills and knowledge that employers value most.

PG DIPLOMA IN CLINICAL RESEARCH

Duration
12-13 Months

www.clinogenesis.com

Shape the future of healthcare with our P.G. Diploma in Clinical Research. Gain expertise in conducting clinical trials, mastering research design, regulatory compliance, and ethical practices. This program equips you with the essential skills to ensure the safety and effectiveness of new medical treatments, preparing you for a vital role in the industry.

MODULE COVERED

▶ Non Technical Modules (2-3 Months)

- Soft Skills Training
- Aptitude

▶ Technical Modules (8 Months)

- Clinical Research
- Pharmacovigilance
- Clinical Data Management
- Regulatory Affairs
- Medical Writing
- Medical Coding (Minor Module)
- Bioinformatics (Minor Module)

Our Advanced Diploma in Clinical Research is tailored for healthcare professionals and researchers eager to deepen their understanding of clinical trials and medical research. This comprehensive program goes beyond the basics, offering in-depth training in research methodologies, regulatory affairs, and the ethical challenges of clinical research, all to prepare you for leadership roles in this critical field.

MODULE COVERED

▶ Non Technical Modules (01 -02 Months)

- **Soft Skills Training**
- **Aptitude**

▶ Technical Modules (5 Months)

- **Clinical Research**
- **Pharmacovigilance**
- **Clinical Data Management**
- **Regulatory Affairs**
- **Medical Writing**

ADVANCE DIPLOMA IN CLINICAL RESEARCH

Duration
06-07 Months

CERTIFICATION IN CLINICAL RESEARCH

 **Duration**
03-04 Months

www.clinogenesis.com

Our Certification in Clinical Research is crafted for healthcare professionals and researchers eager to elevate their expertise in the nuances of clinical trials and medical research. This program offers an immersive experience, diving into advanced research methodologies, regulatory frameworks, and the ethical dimensions of clinical research, equipping you with the skills to excel in leadership roles within the field.

MODULE COVERED

▶ **Non Technical Modules (01 Months)**

- **Soft Skills Training**
- **Aptitude**

▶ **Technical Modules (03 Months)**

- **Clinical Research**
- **Pharmacovigilance**
- **Clinical Data Management**
- **Regulatory Affairs**
- **Medical Writing**

**Choose Any 3
Modules**

Eligibility Criteria

Our Clinical Research course is designed for a diverse group of individuals eager to deepen their expertise in this dynamic field. Whether you're a professional in healthcare, life sciences, or pharmaceuticals, or simply passionate about clinical research, this course could be a perfect fit for you.

- **Healthcare Professionals:** Ideal for those with degrees like MBBS, BDS, BHMS, BUMS, BAMS, BPT, or BSc Nursing, who are looking to expand their clinical research skills.
- **Life Science Graduates:** Suited for individuals with BSc or MSc degrees in life sciences, including disciplines like biology, chemistry, biochemistry, microbiology, biotechnology, biomedical science, botany, zoology, and related areas.
- **Pharmaceutical Experts:** Tailored for those with qualifications such as Pharm D, B Pharm, or M Pharm, aiming to step into research roles.

This course also opens doors to careers as Research Coordinators, Research Assistants, and various positions within the industry. No matter your background, if you're driven to advance your knowledge and skills in clinical research, this course is ready for you.

JOBS IN CR DOMAIN

▶ Clinical Research

- CTC - Clinical Trial Coordinator
- CTA - Clinical Trial Associate
- CRC - Clinical Research Coordinator
- CRA - Clinical Research Associate
- CMS - Centralized Monitoring System

▶ Pharmacovigilance

- Junior Drug Safety Associate / Specialist
- Analyst in Safety Assurance

▶ Clinical Data Management

- Data Analyst
- Data Specialist
- Lead CDM manager

JOBS IN CR DOMAIN

▶ Regulatory Affairs

- Regulatory specialist
- Compliance officer
- RA Officer
- RA Project Manager

▶ Medical Writing

- Associate medical writer
- Medical writer
- Principal writer
- Consultant writer

▶ Clinical Data Management

- Data Analyst
- Data Specialist
- Lead CDM manager
