Gravestone Markers in the Old Burial Ground

The layout of the inventory of gravestones is relative to standing as the western end of the cemetery facing the church at the eastern end.

The location of markers is according to row and position in the row from the left. A marker location identified as 32-10 is in Row 32 and ten markers in from the left end of the row.

Find the row number on the left end of the row and count from the left end of the row toward the right end to locate the gravestone.

Row and position numbers for specific gravestones can be found by contacting the Little Compton Historical Society. (401)-635-4035 or lchistory@littlecompton.org
