Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Emergency Beacon Registrations

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on April 28, 2025 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Emergency Beacon Registrations.

OMB Control Number: 0648-0295.

Form Number(s): None.

Type of Request: Regular; Revision and extension of an approved collection.

Number of Respondents: 376,063.

Average Hours per Response: 15 minutes.

Total Annual Burden Hours: 94,016.

Needs and Uses: This is a request from NOAA's National Environmental Satellite, Data, and Information Service for extension and revision of an approved information collection: Emergency Beacon Registrations (OMB Control Number 0648-0295).

The United States, Canada, France, and Russia operate the Search and Rescue Satellite-Aided Tracking (COSPAS/SARSAT), a satellite system with equipment that can detect and locate ships, aircraft and individuals in distress if an emergency radio beacon is being carried. This system is used to detect digitally encoded signals in the 406.000-406.100 MHz range, coming from these emergency beacons. The 406.000-406.100 MHz beacons transmit a unique identifier, making possible the ability to combine previously collected data associated with that beacon and transmit this vital data along with the beacon's position to the appropriate rescue coordination center.
